2. Public Hearing: 30-32 Walnut Street (Continued From 05.21.25)

Pursuant to Massachusetts General Laws, Chapter 40A s.5, the Maynard Zoning Board of Appeals will hold a remote public hearing on ZOOM video, to hear all persons interested in the application filed by owner Daniel Cormier, 30-32 Walnut Street, Maynard, MA 01754.

The subject property, 30-32 Walnut Street, is a two-family dwelling located in the General Residential (GR) zoning district. Per Sections 3.1.2 and 8.3 of the Maynard Protective Zoning By-Laws, the applicant seeks Special Permit approval to operate an Accessory Home-Based Business (Type-B) at 30-32 Walnut Street, and to allow overnight outdoor parking of two additional commercial vehicles associated with this business on the property.

Conduct at this meeting is governed by the Town of Maynard Policy on [Public Participation at Meetings of Public Bodies](#).

Maynard Zoning Board of Appeals (ZBA) Meeting and Public Hearing
May 21, 2025 – 7:00 p.m.
(Held remotely via Zoom)

ZBA Board Members Present: Paul Scheiner – Chair; Leslie Bryant; Jerry Culbert; John Courville; Brad Schultz and Jackie Downing (Alternate).

Others Present: Zoe Piel – Assistant Town Planner/Conservation Agent; Bill Nemser – Planning Director; Tete and Elizabeth Cobblah, Richard Bourque, Daniel Cormier

Called to Order at 7:05 p.m. by Chair Scheiner. The board members introduced themselves.

1. Meeting Minutes of February 27, 2025

Chair Scheiner made one correction to attendees listed.

Ms. Bryant made a motion to accept the minutes of the February 27, 2025 meeting of the Zoning Board of Appeals as amended. Mr. Culbert seconded the motion.

The Board voted unanimously by roll call to accept the minutes.

2. Public Hearing - 25 Garfield Avenue

The owner/applicants, Tete and Elizabeth Cobblah, represented by their contractor, Richard Bourque, are requesting a Variance granting relief from Section 4 of the Zoning By-laws, to construct an addition to the property that would extend the existing nonconforming front setback and create a new nonconformity by exceeding building coverage limits (15%/1,200 sf. allowable, 21.3%/1,703 sf. proposed).

Mr. Bourque introduced himself and advised the board he would be speaking on behalf his clients who were also present.

Mr. Bourque explained that he wished to add an addition of approximately 765 square feet to the existing structure. Because the proposed addition would exceed the maximum building coverage of 15% to approximately 20%, a Variance required.

Chair Scheiner explained that for a variance, the board has very strict criteria under state law that it must follow and that each must be met in order for the board to allow a variance and asked the applicant to explain what specific hardships warranted this request. Mr. Bourque responded that the lot was undersized, but that the applicants needed additional first floor room

to prepare for aging in place and to accommodate visitors. Chair Scheiner acknowledged this was understandable, but pointed out that the law does not allow for personal hardships, but that the hardship must be connected specifically with the parcel and the structure.

Chair Scheiner asked Ms. Piel to clarify data in the staff report table, indicating that the property could be expanded roughly half the size proposed without exceeding the coverage and consequently negate the need for Americans. Ms. Piel stated that was the case.

Chair Scheiner asked the board for comments: Mr. Schultz asked if the proposed addition would add or expand the basement of the structure. The contractor stated that was not the case. Mr. Schulz explained that this was to clarify soil conditions on the property to determine if they should be factored into the request. Mr. Schulz concluded by pointing out that the applicant could avoid the need for a variance at all with an expansion that brought the structure to 15% coverage.

Mr. Colbert stated he agreed with Mr. Schulz's assessment and said that he was not sure he could support the application for Variance when the petitioner had the opportunity to expand and stay within the dimensional requirements of Zoning By-laws.

Miss Bryant asked staff if the applicant would be prohibited from filing a similar request for a two-year period if they went forward with this petition and were denied by the board. Ms. Piel stated that was the case.

Chair Scheiner pointed out that in cases similar to this, where both sides are working towards a solution, it has been successful for the applicant to resubmit plans based on the ZBA input. Mr. Bourque stated that he did not want to have a denial that would prevent the work for two years. The contractor agreed that this would be the best approach, but then he had to consult with his clients. Leslie Bryant made a motion to continue the hearing to June 16 at 7 PM. The motion was elected by Jerry Culbert (the meeting date was scheduled a week early in June because of conflicting availability of several members).

3. Public Hearing – 30-32 Walnut Street

The owner/applicant, Daniel Cormier, is requesting Special Permit approval to operate an Accessory Home-Based Business – Type B, per Section 8.3 of the Zoning By-laws.

Mr. Cormier introduced himself and provided the board with a description of the scope of his home business activities. He described the business as including small home repairs, picture-hanging, and other "handy" jobs, but not construction. He also described the three vehicles he uses for the business, including a truck used as a mobile workshop; a dumptruck; and a Japanese *kei* truck used for errands.

Chair Scheiner and Mr. Culbert inquired about a backhoe parked on the subject property. Mr. Cormier stated that the equipment was in use for driveway excavation on his own property and had never been used for the business.

Ms. Bryant asked the petitioner whether the excavation was threatening any trees on the property. Mr. Cormier replied that he did not believe so. Ms. Bryant also asked when the driveway excavation had begun, which Mr. Cormier estimated two years ago. He explained that an injury had interrupted the progress of the driveway project.

Chair Scheiner referred the petitioner to the new AHHBA by-law and its criteria for the Board's favorable findings. Ms. Downing asked the petitioner to consider potential mitigation approaches for exterior storage of vehicles and equipment. Mr. Schultz pointed out that other small-job handyman services can be operated as AHHBA-Type A, as all outside evidence of the business activity is screened or otherwise mitigated.

Mr. Cormier noted to the Board that he planned to retire in 5-10 years, so he did not feel the business should be considered a long-term issue. Multiple members of the Board discussed continuing the public hearing pending a site visit to the property. Mr. Culbert moved to continue the public hearing. Ms. Bryant seconded the motion. The Board voted to continue the public hearing to the meeting of June 16, 2025, at which the meeting would commence at the site visit at 6:30PM and continue on Zoom after completion of the visit.

Chair Scheiner made a motion to close the meeting, which Ms. Bryant seconded.

The Board voted unanimously by hand to close the meeting.

The meeting was closed at 8:55 p.m.

ZONING BOARD OF APPEALS

Instructions for Petitioner

The Petitioner is advised to review the Maynard Zoning By-Laws (copy available at Town Clerk's Office), The Zoning Act (Massachusetts General Laws Chapter 40A), and these instructions, prior to filing a Petition and prior to appearing before the Zoning Board of Appeals (ZBA) at a Public Hearing.

The petition must be completely and accurately filled out, and all information must be entered in the appropriate space provided before the petition will be accepted for filing. Incorrect information may result in denial of the petition.

The petition shall be reviewed by the ZBA before it is accepted as filed. The ZBA reserves the right to have the petition reviewed by the Building Commissioner, the Superintendent of Public Works, and/or the Planning Board before the same is accepted for filing.

The petition must indicate the specific section of the Zoning By-Laws for which each variance, permit, or appeal is being petitioned.

Example: "A variance is sought from Section 4-1 of the Zoning By-Laws from the front setback requirement of Twenty Five (25) feet to Twenty (20) feet".

Each specific variance, permit, or appeal being requested in the petition must be set forth in a separate paragraph of the petition to clearly indicate the different requests. Failure to so state the requests clearly may result in the petition being denied.

The petition must be accompanied by:

- a) A Plot Plan which has been prepared and stamped by a Registered Land Surveyor or Engineer. This Plan must show:
 - i. All existing buildings on the property and all proposed buildings and additions.
 - ii. Distances from structures to lot line and length of lot lines, together with all dimensions and setbacks of proposed buildings.
 - iii. In the case of a residential dwelling, the front of the dwelling as defined in the Zoning By-Laws, and must further show the location of all present or proposed driveway or vehicle access areas.
 - iv. The Plan should, but need not, denote any other significant features of the Lot depicted on the petition, such as fences, stone walls, brooks, drains, or accessory structures.
 - v. If there is significant variation in the topography of the lot which is the subject of the petition it is recommended that spot elevations be shown by the Engineer.
- b) A list of all abutters, and abutters of abutters within three hundred foot of the property line of the property affected. This list must be certified by the Board of Assessors. Failure to provide this list will result in the petition being considered incomplete. Incomplete petitions will be returned to the petitioner.
- c) An area map obtained from the Board of Assessors, showing the area in which the property is situated.
- d) A check, payable to the Town of Maynard for the appropriate filing fee plus the fee for postage (this is based on abutters list and the cost of mailing by certified mail, return receipt requested) plus the cost for advertising in the local newspaper. Please be aware that there may be additional costs for filing with the Registry of Deeds.

- e) Appropriate documentation as to the relief being sought. These are outlined in the following sections.

In the case of a **Variance**, the following points, based on Massachusetts General Laws, Chapter 40A, Section 10, should be identified and factually supported on or with the petition form and verbally at the hearing:

- a) The particular Land or Structure, or the Use proposed for the Land or Structure, if any;
- b) The circumstances relating to the soil conditions, shape or topography of the Land or Structures and especially affecting the Land or Structure for which the Variance is sought which do not affect generally the Zoning District in which it is located;
- c) The facts which make up the substantial hardship, financial or otherwise, which results from the literal enforcement of the applicable zoning restrictions with respect to the Land or Structure for which a Variance is sought. (Substantial hardship is not purely economic in nature. It is insufficient to present evidence at the hearing merely showing that the value of the land in question will be affected by a lack of or denial of the requested variance.);
- d) The facts to support that the relief sought will be without substantial detriment to the public good; and that the public health and safety is not compromised by the granting of a variance;
- e) The facts to support a Finding that the relief sought may be given without nullifying or substantially derogating from the intent or purpose of the Zoning By-Laws; and
- f) Any other information pertaining to the variance which is the subject of the petition.

In the case of a **Special Permit**, the following points, based on Massachusetts General Laws, Chapter 40A, Section 9, should be identified and factually supported on or with the petition form and verbally at the hearing:

- a) The particular type of Use proposed for the Land or Structure, if any;
- b) The conditions and character of operations of the proposed Use which show that it will be in harmony with the general purpose and intent of the District and the By-Laws; and
- c) The nature of the proposed Use in relation to both the general and specific provisions of the By-Laws governing that Use and the District it is located.

In the case of an **Appeal**, the following points, based on Massachusetts General Laws, Chapter 40A, Section 8, should be identified and factually supported on or with the petition form and verbally at the hearing:

- a) The grounds for the appeal;

- b) Supporting documentation relative to the nature of the Appeal; and.
- c) Note: In the case of an Appeal from the action or failure to take action by the Building Commissioner, the appeal shall be filed with the Town Clerk within thirty (30) days from the date of issuance of a Permit or denial of a Permit by, or an Order, ruling, decision, or determination of, the Building Commissioner.

Failure to present evidence in one or more of the foregoing areas may result in the petition being denied by the ZBA. The ZBA cannot draw from the petitioner the necessary evidence to grant the petition if improperly presented.

ZONING BOARD OF APPEALS

Petition Process

Petition Submittal

The process for filing a petition and appearing in front of the Zoning Board of Appeals (ZBA) is as follows:

The Petitioner shall file the Petition for an **Appeal**, a **Variance** or a **Special Permit** with the ZBA, which will then review the Petition, and if complete, shall transmit a copy forthwith to the Town Clerk. The Petition shall consist of the completed Petition form, plot plan, area map, and other documentation as necessary to support the petition, as well as the appropriate fees. Incomplete petitions shall be returned to the petitioner.

In the case of an **Appeal** from the action or failure to take action by the Building Commissioner, the appeal shall be filed with the Town Clerk within thirty (30) days from the date of issuance of a Permit or denial of a Permit by, or an Order, ruling, decision or determination of, the Building Commissioner.

Notice and Hearings

Notice of ZBA hearings shall be advertised as required by the provisions of Massachusetts General Laws, Chapter 40A, Chapter 11:

Notice shall be given by publication in a newspaper of general circulation in the town once in each of two successive weeks, the first publication to be not less than fourteen days before the day of the hearing and by posting such notice in a conspicuous place in the town hall for a period of not less than fourteen days before the day of such hearing. Notice shall be sent by mail, postage prepaid to the petitioner, abutters, owners of land directly opposite on any public or

private street or way, and abutters to the abutters within three hundred feet of the property line of the property affected.

Hearings of the ZBA shall occur as necessary at times determined by the Board, in the Hearing Room in the Town Hall or any other place specified in the meeting notice. Frequency of hearings depends on the number and type of petitions on file. Typically, the ZBA meets monthly in an evening session.

All hearings shall be open to the public. No person shall be excluded unless they are considered by the chairperson to be a "serious hindrance" to the workings of the Board.

The Petitioner may appear on their own behalf or be represented by an agent or attorney. In the absence of any appearance without due course on behalf of a Petitioner or the owner of the property affected, the Board will deny the Petition.

Order of Business:

The Hearing for each petition shall be conducted as follows:

- a) Opening of the Public Hearing
- b) Reading of the petition legal notice by the Chairperson;
- c) Presentation by Petitioner;
- d) Presentation(s) by those in support of the Petition;
- e) Presentation(s) by those in opposition to the Petition;
- f) Questions by those seeking information;
- g) Rebuttal by Applicant, restricted to matters raised by opponent's objections;
- h) ZBA members hearing the case may direct appropriate questions during the hearing;
- i) Closure of the Public Hearing
- j) Deliberation and determination of findings by the ZBA.

Filing of Decision

After deliberation, the ZBA will reach a decision. The decision requires a favorable vote of at least four members of the ZBA to grant the petition. If the decision is to grant the petition, the ZBA shall issue a copy of its decision to the owner and to the petitioner, if other than the owner, setting forth compliance with the statutory requirements for the issuance of such variance or permit and certifying that copies of the decision and all plans referred to in the decision have been duly filed.

The variance or permit shall take effect after a copy of the decision bearing the certification of the Town Clerk that twenty days have elapsed after the decision has been filed in the Town Clerk's Office.

If the decision is to deny the petition, the decision is filed in the Town Clerk's Office. Resubmission of the same petition is then precluded from occurring for two years, per M.G.L. Chapter 40A Section 16.

In cases where an appeal is made to the ZBA under G.L. c. 40A Section 8, other rules apply. See M.G.L Chapter 40A Section 15.

Hello Panel,

My name is Daniel Cormier and I operate Handy for Hire. I've lived in Maynard roughly 36 years, owned this, my only home for now 31 years and have operated my business at this location for 22 years. I am essentially the village "fix-it" guy as an outstanding talent receiving 5 star reviews consistently. I've actively cared for the aging up an down Walnut St. namely Millie Hodgess, Peter Parazzo, Bob Manasian a WW2 veteran, and Tony and Bunny Maria to the largest extent next door at 34 Walnut while still offering friendly help to existing neighbors in need who wish not to be made known or considered elderly yet. My original vehicle I operated for 18 years and accumulated 130k miles for an average of 7,200 miles annually. It's replacement is averaging 4,600 miles annually partly due to using Butler Lumber far more over big box stores that helped foster the business. This is relevant because it illustrates that all of this work is local and increasingly more so over time. The way I've operated has changed very little since inception. The allowed primary vehicle goes out in the morning and returns each day with varying amounts of debris that is created which, part of the service is to leave the property clean. Because I am only small jobs this might be only, the old closet hardware, an old storm door, old interior trim and cuts or truly most often no debris at all. That debris is then put into a truck that negates the need for a dumpster service and it's primary purpose is to run to the dump every 2-3 months. The truck has never had dumping capacity so that means that it is filled in an orderly fashion. Storm doors, sheets of stock and such standing on the left, long slim stick type items along the right. All small and dusty debris is bagged and placed at the front of the bed and all short stock is collected at the tail. This all makes off-handling all of the items lightening fast and easy. Short debris gets kicked off first, panels second, trash bags next and long stock last. There is never ever any food involved or anything dusty or carries an odor that I, more than anyone forbids. I as well have to add that all is covered with a dot required tarp at all times. It is an essential part of my business which clocks an average in the past of 700 miles per year and I'd venture more recently even less. There is extremely low traffic impact from this vehicle. I do have a third vehicle that could not possibly have less impact as a commercial vehicle and that is my Japanese KEI truck. It's smaller than a 70's vw bug but has become a formidable tool in my arsenal to further economy and reduce operation of the other vehicles. It comes and goes in near perfect silence, for meets with customers and acquire supplies. It is the epitome of low impact and high efficiency and only brought into service under two years past.

Other items pertinent to the purpose of this hearing is the use of a small spraying apparatus that fits in the back of the KEI truck. As small as that truck is it only takes up a third of the bed, it stays in the truck from spring to fall and is removed, winterized and stored over the winter. So I am asking the Zoning board of appeals for these items

One: Being the secondary vehicle and dump runner (in lieu of allowed dump trailers)

Two: Being the Japanese mini truck

All three will have markings.

Three: The allowance of the 25 gallon spraying equipment unit.

Four: Would be the allowance of an existing 8x20 shelter moved to within setback limits and

Five: Which has not been yet discussed but in all of my 22 yrs in bus., 31 residing, this town has never once heard voice of any discontentment. My request here is that in creating a small job business from scratch requires an all in approach to endure the painful challenges. My childhood experience was growing up around a family business that was the neatest and cleanest gas station/repair shop you've ever seen. This is where my exceptional repair talents and neat habits began to blossom. I became an ASE master certified technician and upon the purchase of my one and only property and gained employment at Concord Chrysler (6 months) then 3 years at

Swanson Pontiac where I was placed behind the service desk due to my exceptionally neat and professional appearance habits. I am now 60 years of age at this point and do not create work out of joy but apply my abilities and expertise to my benefit and savings is and has always been a key part of my survival. I work a full week and Saturday is typically the time I use. I'll lay out the needed items quietly and wait for a reasonable time and most often it's only a small part of the day. I kindly ask that I be allowed to maintain only my own business vehicles as I have for 22 years. I don't find it fun, I do it because the financial savings are more than significant. I also don't plan to keep this up forever. My increasing age is pushing me away from these activities more and more.

So to clarify I am requesting the last permit which: is to be allowed a special permit for the ability to continue as I have for 22 years without issue during the hours of 9-5 that will only occur sporadically and infrequently as needs arise.

As an aging 36 year resident who has given physically with all I have over a long working career and now emerging as the needy elderly neighbor who doesn't move or get up like I used to. I was hoping to close out my experience at this residence with a perfectly neat and more marketable property fueling my retirement era. I've been called to this hearing the height of the chaos of reshaping the rear of this property to create the quiet and neat greenspace it has never been since originally built in 1880. Eliminating the rear parking necessity that has robbed my children of a place to play ball or adults to relax outdoors without vehicles. Future parking to emulate literally every other house on the street. Being allowed these considerations enables me to complete this work. The dump runner especially in acquiring rocks, bark mulch, loam, plantings etc.

One last late addendum to this is to address an accusation that I'm performing my primary handyman activities at my address, What little I may have done can certainly be averted to be conducted at each job site location. It has been so little that it is practically insignificant impact to me.

Thank You in advance for your time and consideration.

Dan Cormier
